EMERGENCY RESPONSE PRODUCTS

PROTECTIVE GEAR

Shelby® GLOVES are designed for firefighting professionals. Made of cowhide, wash-and-wear pigskin or **EverSoft®** cowhide for durability and toughness. Rescue/Extrication gloves are Gunn cut and feature a hemmed cuff with shirred elastic and a keystone thumb for superior movement and comfort. All other gloves are Gunn cut with seamless palms, wing thumb construction and **Nomex®** wristlets. The fire retardant cowhide models also include a breathable **Porelle®** fluid-barrier liner.

PPE

Self-Defense For Your Hands.

MCR NINJA® SERIES GLOVES

Sleek and low key, with a firm grip, **Ninja® Series Gloves** are more comfortable than most other gloves. That means hands are, too.

Ninja® X

The **Ninja® X** has a 15-gauge black nylon/spandex shell and black bi-polymer coating on the palm and fingertips. Use when dexterity and a sense of touch are needed. CE score 412X. Black. Sold by the dozen.

Part No	Description	Size
N9674MMG	Ninja X Gloves	M
N9674LMG	Ninja X Gloves	L
N9674XLMG	Ninja X Gloves	XL

Ninja® Flex

The **Ninja® Flex** features a 15-gauge nylon shell with latex coating for excellent flexibility, elasticity and durability. Ideal for dry-grip situations. CE score 3131. Red/Gray. Sold by the dozen.

Part No	Description	Size
N9680MMG	Ninja Flex Gloves	M
N9680LMG	Ninja Flex Gloves	L
N9680XLMG	Ninja Flex Gloves	XL

Ninja® Max

The super-stealth **Ninja® Max** uses a 10-gauge blend of **Dyneema®** and synthetic yarn to create a shell that protects hands from cuts and more. Bi-polymer coating combines durability and softness, too. CE score 4542, CE/EN cut level 5, CPPT cut level 3. Gray/Black. Sold in pairs.

Glove Care and Use

- Select the size that is most comfortable for you.
- Discard disposable gloves in appropriate waste containers.
- Before each use, inspect gloves for signs of deterioration, cuts, tears and holes.
- Replace worn or damaged gloves.
- Do not wear watches, rings or other jewelry that could puncture gloves.
- Wash and dry your hands before and after wearing gloves to reduce contamination.

PPE

Ninja® Ice

Ninja® Ice Insulated, HPT™ Coated Gloves from MCR Safety have dual-shell construction with a nylon exterior shell and a polyester brushed micro-terry interior shell for warmth and comfort. The **Proprietary HPT** coating creates a liquid repellent for a good grip wet or dry, stays soft and flexible in temperatures as low as -58°F and serves as an impact absorbent cushion. The fabric is treated with **Actifresh®** to kill bacteria. CE score 3232; CE/EN 511 Cold Hazard 02X. Black. Sold by the dozen.

PPE

SUPPORTED PVC GLOVES

MCR's premium double-dipped PVC Gloves offer maximum resistance to chemicals, oil, solvents and strong acids. The gloves are flexible and the non-slip grip on double-dipped models makes them ideal for wet or dry applications. Soft jersey or interlock linings add comfort and the **Actifresh** treatment retards odors and controls bacterial build up. The gloves are color-coded – black for basic liquids and green for oils, solvents and petrochemicals. Sold by the dozen.

TUFFTEX® SUPPORTED RUBBER GLOVES

Built tough, **TuffTex® Gloves** are rough-textured to stand up to the toughest work. The natural rubber coating and crinkle finish also provide a better grip and a higher degree of cut resistance than most other gloves. Perfect for dealing with sharp-edged materials; like glass and metal or working with abrasive items. Yellow. Sold by the dozen.

Part No	Description	Size
6820MG	Premium Grade Rubber Coated, Cotton Canvas Shell, Crinkle Finish, 2 1/2" Rubberized Safety Cuffs	L

NEOMAX® GLOVES

Neomax® Gloves feature a gauntlet cuff and have a double-dipped neoprene coating for extra protection. A 100% cotton, brushed-interlock lining adds extra comfort and better absorption, too. These gloves feel and flex like rubber, but with a lot more versatility, protecting hands from abrasions, cuts and hazardous chemicals – even in refrigerated areas. **Neomax Gloves** are treated with **Actifresh** to retard odor and bacteria build up, and have a sandy finish for better gripping. 12". Green. Sold by the dozen.

Part No	Description	Size
6912LMG	Neomax Gloves	L

DUOPRENE® GLOVES

Sandy finished, double-dipped supported neoprene creates **Duoprene® Gloves**. They protect hands against cuts, abrasions and hazardous chemicals. They even stay flexible when used in areas with refrigeration. **Actifresh** keeps bacteria at bay and gloves are also washable. Made with a 100% cotton interlock liner and there's a built-in wear indicator, plus gauntlets. 12". Black/Blue. Sold by the dozen.

 **Kimberly-Clark Professional***

KLEENGUARD* G10 NITRILE* GLOVES

When a risky task calls for maximum dexterity, protection and deftness – **Kimberly-Clark's Nitrile Gloves** are the right call. Ambidextrous gloves offer healthcare professionals protection in moderate to high-risk procedures that involve infectious fluids or bloodborne pathogens and also protect patients from cross-contamination. Plus, the nitrile composition eliminates allergic reactions to latex. Textured **KLEENGUARD® Gloves** are also powder-free and provide a high degree of resistance to cuts, punctures and abrasions. Both glove types are 9½" long, have beaded cuffs and work for specialized medical applications as well as general purpose work.
